## The Florida House Republican Anti-Worker Secret Ballot Plan: It's a Trojan Horse.

House Joint Resolution 1013 is the Florida House Republican's newest Trojan Horse. Like the Trojan Horse of Greek legend, HJR 1013 seeks to catch people off guard by creating a distraction from the Legislature's top priorities.

When will House Republicans focus on the priorities that concern Floridians, like how to resolve Florida's budget crisis, improve the economy, grow new jobs, and improve schools and health care for all Floridians?

According to the ancient story, the Greeks built a giant hollow horse and hid soldiers inside. The Trojans thought it a gift and wheeled it into their city. When the city was asleep, the Greek soldiers emerged and attacked the defenders from inside.

Instead of HJR 1013, Florida House Democrats would prefer to address:

**THE STATE BUDGET CRISIS**

**Florida Held Hostage**

**-DAY 30-**

**How many more days until State House Republicans Accept Florida's  
Full and Fair Share of Federal Economic Stimulus Funds?**
